HOW TO CHOOSE THE RIGHT TAX EXPERT

More and more people are searching for good tax experts able to help them to manage their finance, to suggest interesting investments and above all, tax experts who are always available especially in difficult situations.

We have asked renowned law offices such as Interconsulting what the steps to follow in order not to make mistakes. Here are 10 pieces of advice to find the best professional:

- Check that the professional is registered in a Bar or in a professional association;
- Do not choose the professional only because he/she is cheap;
- Ask for a quote;
- Do not ask business consultants to do administrative matters;
- Avoid any conflict of interests;
- Ask for the availability of the professional also in emergency situations;
- Ask for an updating of new norms;
- Remember that older professionals are more expensive;
- Check the possibility of direct contact with the professional;
- Check that the professional is insured.
